

PRECISION CUTTING TOOLS, INC.

ENDMILLS

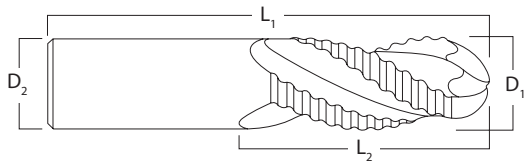

COARSE PITCH ROUGHING ENDMILL

HIGH SPEED STEEL M7

3 Flute Coarse Pitch Roughing Endmill

The Cobalt Coarse Pitch Endmill is engineered for machining Aluminum and its alloys. Its coarse teeth and center-cutting design allow for heavy cuts. In addition, our Coarse Pitch Endmill also comes with Weldon Flats to help reduce tool slippage during machining.

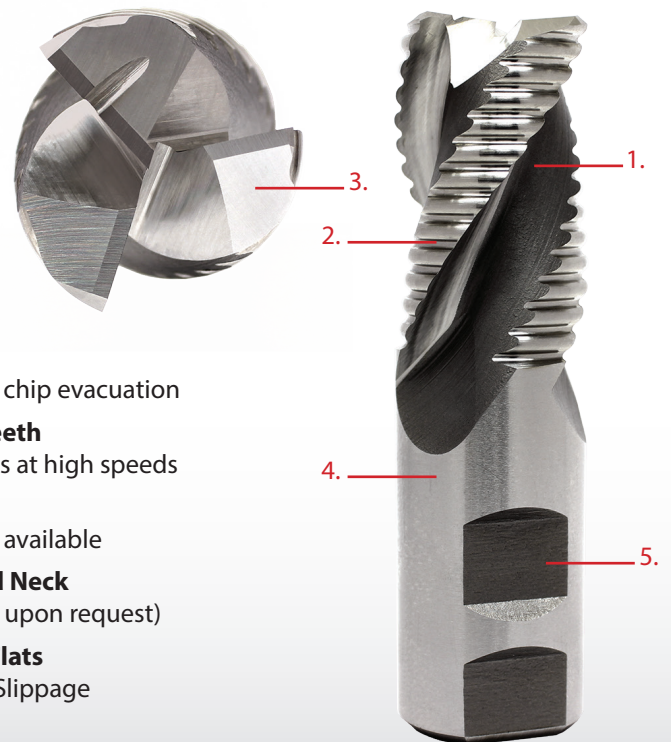

HSS (M7)	3 Flutes	37°	Coarse Rougher
--------------------	--------------------	------------	---------------------------

Benefits:

- Increased metal removal rates
- Improved accuracy
- Chatter-free machining
- High speeds & feeds
- Longer Tool Life

Applications:

- Aluminum
- ...and its alloys

- 37° Helix**
Improved chip evacuation
- Coarse Teeth**
Heavy cuts at high speeds
- 3 Flute**
Left-hand available
- Extended Neck**
(Available upon request)
- Weldon Flats**
Reduced Slippage

Proudly Manufactured in the
United States of America
