

PRECISION CUTTING TOOLS, INC.

ENDMILLS

STANDARD FINISHING ENDMILL

337 SERIES

3 Flute - Carbide Endmill Primary & Secondary

The 337 Series is designed for high-speed machining of Aluminum applications. The 337 Series consists of 3 flutes, a 37° helix and Z-Power® coating; all excellent properties for enhanced chip evacuation and an improved surface finish.

CARBIDE

3
Flutes

37°

Z-Power®

Z-Power® has excellent corrosion and adhesion resistant properties.

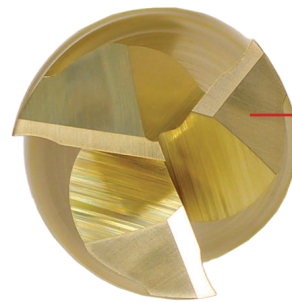

Benefits:

- High speeds & feeds
- Improved cutting accuracy
- Efficient chip evacuation
- Improved surface finish

Applications:

- Aluminum
- ...and its alloys

- 37° Helix**
Improved chip evacuation
- 3 Flute**
Left-hand
(Available upon request)
- Primary and Secondary**
Provides sharper cutting edge
- Z-Power® Coating**
Reduced friction between the chip & tool
- Extended Neck**
Available for deep-pocket applications

Proudly Manufactured in the
United States of America
