

PRECISION CUTTING TOOLS, INC.

ENDMILLS

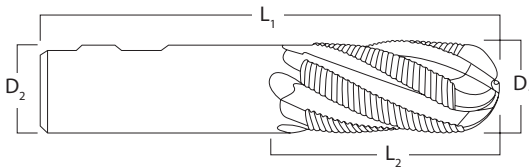

HIGH-PERFORMANCE ROUGHER

POWDER METAL PM30

4, 5, 6 & 8 Flute
Fine Pitch Roughing Endmills

The Powder Metal Roughing Endmill is engineered with fine teeth, enabling superior fine chip evacuation when machining Titanium & Stainless Steels. This Roughing Endmill is ideal for Titanium & Stainless Steel applications.

PM30	4, 5, 6, 8 Flutes	30°	Fine Rough
-------------	-----------------------------	-----	------------

Exxtral Plus® is ideal for high-performance machining of hard materials.

Benefits:

- Increased metal removal rates
- Improved accuracy
- Chatter-free machining
- High speeds & feeds
- Longer Tool Life

Applications:

- Titanium
- Stainless Steels
- ...and Their alloys

- 30° Helix**
Increased stability
- Fine Teeth**
Fine chip evacuation for smooth finish
- 4-8 Flutes**
Left-hand (Available Upon Request)
- Exxtral Plus® Coating**
High-speed operations, semi-dry or dry machining
- Extended Neck**
Available for deep-pocket applications
- Weldon Flats**
Reduced Slippage

Proudly Manufactured in the
United States of America
